

Major Manufacturer Central DC

Major manufacturer, (Fortune 100) with multiple 300,000+ square foot distribution centers.

Project Objective

Consolidate two smaller distributions centers into new 1 million square foot building.

Project Scope

Provide material handling and other equipment along with union installation. Very accelerated timeframe required that the installation began prior to building being fully under roof. DAK provided everything from the racking, wire deck, carton and pallet flow, guarding, labeling custom equipment for both inside and outside the building right down to the trash cans.

Ph # (630) 516-1115
